

## Heritage at Framingham

is one of the most acclaimed assisted living projects in the country. The National Council on Senior Housing awarded us with the **Gold Seal Award** for the best designed assisted living community in the U.S.

Our community features separate areas for traditional and memory impairment assisted living programs. The design is noted for its trendsetting "neighborhood" layout. And, the exterior conveys a home-like image, while the interior has elements of a country inn. Exterior features include private courtyards, extensive walking paths, and two acres of gardens allowing unrestricted access to outdoor areas. Our parent organization is MaryAnn Morse Healthcare Corp., a local non-profit that runs one of the best rehab / skilled nursing facilities in the US.

### Heritage at Framingham

747 Water St, Framingham, MA 01701

## REASONS FOR THE AWARD

- More common areas on each floor --- over 50% of the community
- Homelike decor throughout – the look of an inn rather than a hotel or institution
  - Numerous, common rooms on each floor for TV viewing, games, and socializing
  - Choice of several smaller, unique and intimate dining venues
  - Plentiful windows with exposure on many sides and throughout
- Distinct "neighborhoods" for both traditional and memory care
  - Memory care provides a floor plan design that increases success & independence
  - Traditional setting floor plan is designed to increase socialization
- Extensive outdoor walking paths, and gardens with raised beds
- Traditional setting has a café lounge and two fireplaces
- Our memory program has 1.5 acres of *secure* walking paths for independence
- Enjoy concerts, events, family parties & movies (on 7' tall screens) in the multi-purpose room
